EDUCATION

University of Maryland, Baltimore County

Baltimore, MD

(Master of Science in Computer Science GPA-3.75/4.0)

August 2024 - May 2026

Indian Institute of Information Technology, Sonapat

Haryana, India

(Bachelor of Technology in Computer Science and Engineering GPA : 8.45/10)

August 2019 - May 2023

SKILLS / RELEVANT COURSEWORK

Programming Languages: Python, C/C++, C#, SQL, Java, JavaScript

Tools and Frameworks: Unit Testing, Requirements Traceability, Jira, Git, CI/CD, Linux, Windows, Docker, REST APIs, PostgreSQL, Qdrant

Area of interest and Coursework: Software Verification, Medical Device SDLC, Design Analysis, Requirements Management, Risk Analysis, Agile/Scrum, Software Engineering, Data Structures & Algorithms

Workshops and Certifications: Amazon Campus Prep Series-2025

INDUSTRY EXPERIENCE

Data AI Intern

Dec 2025 – Present

Platinum Business Services LLC

Catonsville, MD

- Contributed to the development of Cyberdome, a platform for automating cybersecurity compliance assessment across frameworks such as NIST 800-53 and FedRAMP
- Engineered vector embedding and retrieval pipelines for control data using Qdrant, enabling RAG systems (OpenAI API and local Ollama models) for context-aware querying and automated validation.

AI Engineer Intern

Sept 2025 – Nov 2025

Product Manager Accelerator

Tallahassee, FL

- Protocol releases lacked verification evidence; built Python unit-test and Jira-traced workflows, producing repeatable design analysis reports and cutting review rework 25%.
- Report updates needed reliability; used Git and tests to close 6 defects.

Full Stack Developer Intern

January 2023 – June 2023

Turfco Landscape Co.

Surrey, BC

- Built reliable MERN prototype with auth, payments, and requirement-traced cost estimates

ACADEMIC EXPERIENCE

Graduate Assistant

Aug 2025 – Present

UMBC - Software Engineering & Computer Architecture(400 Level Courses)

Baltimore, MD

- Supported Agile/Scrum teams with requirements, risk reviews, and engineering coordination to improve software quality and drive project completion
- Graded architecture topics relevant to reliable systems: pipelining, cache design, memory hierarchy, and ILP.

Teaching Assistant

January 2025 – June 2025

UMBC - Data Structures (300 Level Course)

Baltimore, MD

- Held OOP office hours, reviewed software design, and supported homework grading

PROJECTS

Bloodborne Text Adventure Edition

Sep 2025 - Dec 2025

Interpreting free-form player commands using transformer models

- Modeled a Bloodborne-inspired game world using JSON-based character, location, item, and dialogue schemas
- Leveraged Mistral-7B with few-shot prompting to map natural language player commands to in-game actions.

When Pixels Talk Back

Jan 2025 – May 2025

Watermarking impact analysis on computer vision models

- Embedded a 1024-bit blind fragile watermark into RONI regions of lung CT scans, achieving near-lossless quality (SSIM 0.9999) while preserving DenseNet-169 performance (F1 0.952)

Nothing Lost in Translation

Sep 2024 – Dec 2024

Lexically constrained machine translation

- Implemented lexical constraints for EN-RU translation using a custom beam search algorithm, outperforming the default .generate method with higher BLEU scores while ensuring inclusion of missing n-grams
